

TA DEVELOPMENT PROGRAM

INSTRUCTIONAL DEVELOPMENT, UC SANTA BARBARA

TA TAPING and CONSULTATION

Open to all Teaching Assistants, Teaching Associates, and all faculty.

This program provides you with the opportunity to be taped while teaching in your own classroom and to review your tape with a TA Taping consultant (a peer from another department) or, if you prefer, a colleague from your department.

Viewing your tape in a non-evaluative atmosphere, you will have an opportunity to:

- reflect on the teaching methods you are already using effectively;
- discuss aspects of your teaching you want to improve or modify;
- explore new methods and strategies you want to experiment with in your teaching.

Comments about the service...

"It gave me a new perspective on my teaching – let me view myself as the students might."

"I learned a great deal; how to look and act when lecturing, how attentive I am to student needs, and how to make my explanations clearer."

"The videotape consultation gave me the chance to view my teaching which helped me to reinforce what I was doing well and illuminated some problems of which I was not aware. I was offered useful advice."

"The consultations were less stressful than anticipated. The consultants offered much food for thought."

THIS SERVICE IS FREE OF CHARGE
